MUSCLE CONDITIONING

BODYPUMP™: 60 minutes. BODYPUMP™ is a revolutionary weight training workout in a group fitness setting that uses barbells with adjustable weights. Set to motivating music, BODYPUMP™ is a simple, athletic based workout that strengthens, tones and defines every major muscle in the body. Ideal for the beginner through the experienced exerciser as you are in charge of how much weight you put on the bar.

CXWORX™: Really hones in on the torso and sling muscles that connect your upper body to your lower body. It's ideal for tightening your tummy and butt, while also improving functional strength and assisting in injury prevention. It'll help you run faster . . . play harder . . . stand stronger! Your workout consists of exercises that both isolate (like crunches and leg extensions) and integrate (like standing balance and hovers) the various muscle groups. It challenges you and you really feel the benefits. (30 minutes)
