CLASS DESCRIPTIONS

MUSCLE CONDITIONING

BODYPUMP™: 60 minutes. BODYPUMP™ is a revolutionary weight training workout in a group fitness setting that uses barbells with adjustable weights. Set to motivating music, BODYPUMP™ is a simple, athletic based workout that strengthens, tones and defines every major muscle in the body. Ideal for the beginner through the experienced exerciser as you are in charge of how much weight you put on the bar.

COREPOLE 'N SCULPT: Gain strength while using resistance bands to go through a progression of single to multi-muscle movements. Emphasis will be placed on form, technique and core awareness.

CXWORX™: Really hones in on the torso and sling muscles that connect your upper body to your lower body. It's ideal for tightening your tummy and butt, while also improving functional strength and assisting in injury prevention. It'll help you run faster ... play harder ... stand stronger! Your workout consists of exercises that both isolate (like crunches and leg extensions) and integrate (like standing balance and hovers) the various muscle groups. It challenges you and you really feel the benefits. (30 minutes)

MIND & BODY

ASIAN FUSION: Practiced over 3000 years by Asians, this priceless blend of Tai Chi, Qi Gong, Yoga and Acupressure Points Tapping incorporates continuous, gentle movements to purify and rejuvenate the whole body. This class is appropriate for all, from athletes to older adults.

BODYFLOW™: 60 minutes. BODYFLOW™ is the revolution in mind-body training that is changing the way people feel about their bodies. BEGINNER YOGA: Caught between Chair Yoga and Yogabasics? This class is for you! It is perfect for those who are new to yoga and are looking for a slow paced, relaxing class. There will be a series of basic yoga poses, practiced with both sitting and standing positions. * Must be able to be on your knees and maneuver up and down off the floor easily.

TAI CHI/QIGONG: This class merges Tai Chi and Qigong- with the goal of improving mind/body health. Gentle movements combined with breathing create meditation in motion.

VINYASA FLOW YOGA: This is a moderately paced class with emphasis on good alignment and conscious movement with the breath. Build strength and muscular endurance in addition to flexibility, balance and focus. Prior experience with yoga recommended.

YOGABASICS: Learn the basic poses of yoga in a class that will help you to build strength, increase flexibility and improve balance. Modifications are offered but participants must be able to get onto, and up from, the floor with ease. Whether flowing thru Sun Salutations or holding poses in stillness, you will be encouraged to develop mindful breathing, focused attention, body awareness and self-acceptance.

CARDIO

Cardio blocks push fat burning systems into high gear followed by muscle conditioning tracks that shape and tone your body.

sprint A 30-minute High-Intensity Interval Training (HIIT) workout, using an indoor bike to achieve fast results. It's a short, intense style of training where the thrill and motivation comes from pushing your physical and mental limits. A high intensity, low impact workout, it's scientifically proven to return rapid results. The 30 minutes you put into a LES MILLS SPRINT workout drives your body to burn calories for hours. Each class normally incorporates climbs and free spins to make the ride a super calorie burner and an extreme cardio workout. Be sure to mention it if it is your first time taking an indoor cycling class so the instructor can help you set up your bike for proper alignment and give you some riding tips.

Please pick up a number at the desk to reserve your bike!
