

Body Zone Ice Rental Safety Measures

Face masks, covering nose and mouth, are required at all times while at Body Zone.

1. One parent/guardian per child will be permitted to enter the facility. Siblings or other family members are not permitted.
2. Players and parent/guardian must enter Body Zone via Rink #1 exterior doors facing our main parking lot.
3. Social distancing, six-feet or more apart, in Rink #1 is mandatory.
4. Make sure everyone attending is healthy. If you or the participant/child is sick or you suspect one of you may be sick do not come to the lesson.
5. Make sure to wash your hands and/or use hand sanitizer prior to the program. We have a "Sanitation Station" with hand sanitizer and disinfectant wipes located on Rink #1 for this use.
6. Parents/guardians will be permitted to view programs in a "Designated Viewing Area" located in a contained area roped off from the rink.
7. Bleachers are closed and off-limits to the public.
8. Under no circumstances is anyone to leave the "Designated Viewing Area" in Rink #1 and venture to other parts of Body Zone.
9. Aside from skates, players must be fully dressed in their equipment before entering the facility.
10. Players and parent/guardian may enter the facility **ten minutes** prior to the program start time to put on the child's skates. Benches will be placed throughout the "Designated Viewing Area" for this purpose. Please adhere to proper social distancing requirements -- six feet or more apart during this process.
11. If necessary, players and parent may use the restroom in the referee locker room in Rink #1. Other Body Zone restrooms are off-limits.
12. When the program is over players and their parent must leave Body Zone immediately so Body Zone staff may begin disinfecting Rink #1.
13. Body Zone's face mask and social distancing rules apply while in our parking lot. Please exit the premises after your program ends and refrain from gathering in groups and socializing.

Finally, we ask that you designate a staff member or parent to self-monitor and enforce these protocols. If you would like Body Zone to provide this monitor, there will be an additional fee applied to your ice rental. Failure to adhere to these safety protocols may result in suspension of these privileges.

We hope that these protocols allow the parents of your program to view their child while on the ice, as well as understand our desire to keep everyone safe and healthy while in our facility.
