Class Descriptions

Aqua Fit : Aqua Fit is a total body workout in the shallow, using dumbbells and noodles. Cardio and strength training intervals will be introduced to help increase your fitness level. This class will be a good "push" but modifications will be given.

Aqua Jog : Aqua Jog is a cardiovascular workout that mimics the motion of jogging while submerged in water. This class is great on the joints but can provide an increased heart rate and help you get a great work out by not stressing your joints. You will use your arms and legs together running at least 2 miles in this 50 minute class! Aqua belts will be worn while you are working out in the deep end of the pool.

Aqua Stride & Strength: This class is all about high intensity cardio and resistance interval training. Participants are guaranteed a total body workout with a smile.

Aqua Strong: Anything goes in this fun, moderately intense class. Focus is strength and cardio with variety every time. Expect a total body workout and all fitness levels are welcome.

Aqua Tabata: abata interval training is one of the most effective types of high intensity training while using a timer for work and rest. Mixing this format with adding the resistance of water, through a variety of simple, intense exercises, allows each class to burn calories and get results in a short amount of time! Modifications will be made for beginners.

Aqua Work and Stretch : A complimenting combination of work and stretch! This aqua class will consist of cardio and strength and a dedicated 15-20 minutes of stretching. Instructed by a Yoga certified teacher, you will get deep and soothing stretches to help with tight muscles and aid in injury prevention.

Aqua Zumba: Integrating the Zumba formula and philosophy with traditional aqua fitness disciplines, Aqua Zumba class blends it all together into a safe, challenging, water-based workout that's cardio conditioning, body toning, and most of all, exhilarating.

Sea Sculpt: An all-muscle endurance and strengthening class, using dumbbells, kickboards, and noodles. Held in the shallow end of the pool.

For Private Parties Only!

SUPYoga: Stand-Up Paddleboard Yoga focuses on flexibility and relaxing the mind while floating on the water. Participants will be guided through a sequence of yoga poses and finish class with a focus on core strength. All fitness levels are welcome, and modifications will be given for those who are new to SUPYoga. Prior yoga experience suggested but not necessary. For ages 16 and older.

Total Body Mix: A total body water workout in the shallow and the deep. Mixing it up to maximize your fitness level with modifications along the way! Focus is on increasing your cardiovascular stamina and combining some muscle toning within the workout.

Water Walk: This gentle, low impact Aqua class is designed to get you moving. A variety of traveling exercises will offer a cardio workout to improve range of motion, muscular strength and stamina, while decreasing stress of the joints. This class is great if you are new to fitness and those with arthritis and fibromyalgia.
