Typical Rock Steady Boxing Class Format

Every class includes: dynamic warm-up. Strength, core and balance training in a circuit-style format. Boxing on the heavy bags and speed bags. Cool down and stretching.

About Yoga Therapy: Yoga therapy helps to increase flexibility, improve posture and balance, loosen tight painful muscles, relieve pain and stress, increase confidence and through these benefits enhance quality of life. According to the American Parkinson Disease Association (ADPA) yoga therapy has been shown to visibly reduce tremors and improve the steadiness of an individual's gait. This weekly, 60-minute class will include a chair for support. Each class will include the following sequences:

- Modified, seated postures designed to improve posture, strength, flexibility, and focus
- Breath training for stress relief and relaxation
- Self-massage for pain, muscular relief, and concentration
- Rhythmic movements for joint/gland health, in addition to sharpened coordination for gait and stride
- Yogic hand-holds for inner stability and support within the musculoskeletal system
- Sound therapy for vocalizing and facial muscle coordination
